CLUB EXPERIENCE/PROJECTS

Project Lead/Manager for Queens AI Club (QMIND) 2023-Present

• 2023: Recruited to work as part of a small interdisciplinary team to create an NLP algorithm to analyze government bills and produce a streamlined, more easily readable version for the average person.

• 2024: Promoted to Project Manager in charge of seven design team members. Currently leading a consulting project using AI and RAG to streamline the regulatory process for Sussex Strategy Group.

Zebrotics Engineering Lead, Ann Arbor, MI 2020 – 2023

High School First Robotics

• Directed team of 8 high school students, providing mentorship and technical guidance in designing/building competition-ready robots.

• Oversaw multiple robot builds, ensuring alignment with competition requirements and fostering innovative problem-solving.

PUBLISHED PAPERS

"Moving Beyond ChatGPT: Local Large Language Models (LLMs) and the Secure Analysis of Confidential Unstructured Text Data in Social Work Research". 2024. https://journals.sagepub.com/doi/10.1177/10497315241280686

• Led the backend development, implementing efficient data processing pipelines to securely handle sensitive social work data.

• Benchmarked local large language models (LLMs) performance metrics to evaluate their suitability for confidential data analysis.

"Revealed: The Inner Workings of a Paper Mill" https://retractionwatch.com/2021/12/20/revealed-the-inner-workings-of-a-paper-mill/

• Designed and implemented advanced web-scraping techniques to extract extensive data from academic journal websites.

• Analyzed patterns and irregularities in scraped data to identify systemic issues in fraudulent publication practices.

SKILLS

Python, SQL, R, Tableau, Pandas, NumPy, SK Learn, React, Microsoft Office, Open AI, Google Cloud, Adobe Creative Suite.
Data Analysis, Critical Thinking, Problem-Solving, Teamwork, Quality Control.
